# COMPONENTS

STYLING	ANIMATION	IMAGERY	RESPONSIVE	SEMANTIC HTML
Friendly Colour Palette	Catch Viewer Attention	Visual Engagement	Accessibility on all devices	Documented and organised

I'm looking for a full-stack web developer. |
(kindly press search!)

Search
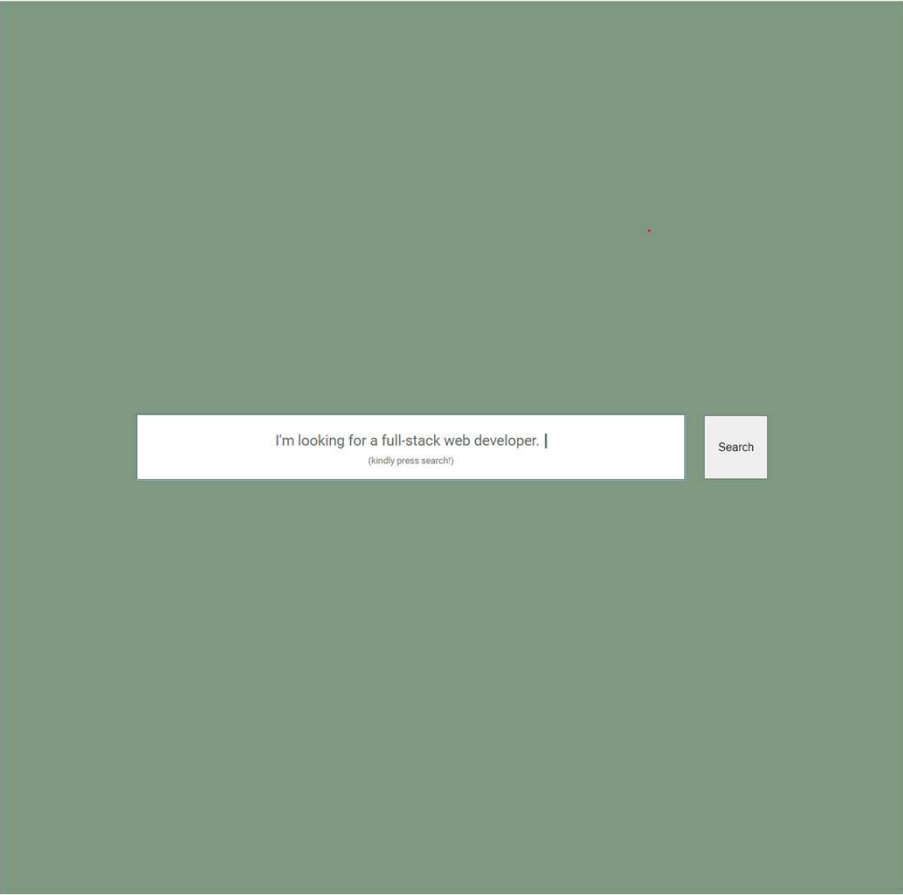

← This is me.

↓ This is my portfolio.

Qualified? Hardly.
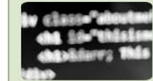

But here's what I can do:

HTML

Skilled in HTML, the building blocks of any and every website you've likely ever visited.

CSS

CSS - without this websites would barely be more than plain text and colours.

AND MORE

Like anyone - I'm still learning. As my course progresses I'll develop familiarity with more languages.

Not interested in the skills?

Here's more about my interests:

PETS

GARDENING

BOARDGAMES

Not interested in the skills?

Here's more about my interests:

PETS

I love all animals - I currently have two dogs and a baby axolotl with a habit of hitting his head.

GARDENING

When it's not bucketing down rain - I love to tend to the garden! Homegrown veggies taste the best.
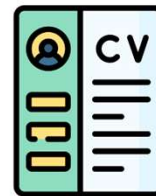

BOARDGAMES

My partner, friends and myself often play boardgames - Extra points for teamwork on my resume?

Want to know more about both?

Kindly download my resume:

I've worked across multiple businesses in the hospitality, entertainment and healthcare sectors.

CV

Blogs by me, on the tech industry:
